THE WORST ENEMIES.

The Carson Tribune says: In almost every State, and particularly new ones, the people are the worst ene-mies and drawbacks, although topography is very injurious, to our State, for there is nothing to please the eye of the western hound traveler from ogden to Reno; nothing but the ever-lasting augebrush plains and here and there a little railroad town to relieve the monotony and until the stranger has visited our mines, cities and ranche he knows nothing of the State, for there is no one to tell him of the beauties and wordrons resources it contains, and he leaves with the knowledge that he passed through Nevade because he heard the conductor say so, and good would it be for the State as well as passengers if travel through it was all by night trains. As a rule our people are croakers, particularly so at railroad towns and in this particular the town of Reno, the growing town of the State, carries of the palm, for a person can spend a week there and apar from Commercial Row can see none out gloomy countenances and hour naught but a growl about dull times, and so the visitor becomes disheartened in the start and the State is that much injured by his Now we see so many ominous clouds

Seldom has a single season seen so many American promoters here as the present one. Many of these are from the south. People on this side of the Atlantic have heard much about the new south. They believe in its natural resources. They know that the south is overrun with northerners, many of whom have put all their money into southern enterprises and want more money to get back their own and more too. The new south's appetite for development has only been whetted. The southern States want money; the southern cities want money; southern corporations and northern corporations in the south want money. They are holding out their bands to Englishmen for it. The

answer of the Englishmen to the request is: "Pay one per cent. on the Confederate bonds which you have repudiated and which we hold, and we will lend you the money you want." They have no notion of accepting 1 per-cent as payment in full. That would not be English. One per cent on Confederate bonds for any loan of magnitude is the English programme, and whether this is paid by northern men or southern men is of no consequence to the English holders of Coufederate bonds, but that it will be paid not once but many times, English holders who

A RARE ICHANCE FOR AN INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee -The Aristocratic Avenue Riverside Driveway-Splendid Sewerage-Healthy Location 1889. and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the fract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is Ormsby County Agricultural Association Livery, feed and Sale Stable, certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

Has no equal in Nevada or California for salubrity of climate, wealth of -soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house Has 5,000 Population and to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Northern California and South-Reno are lighted by elec-
